

# MediTrust

## End-to-End Test Plan

AI-Powered Prescription & Healthcare Platform • v1.0 • 17 Sep 2026

This document is the execution checklist for verifying that every MediTrust feature works end to end: all backend API endpoints and every frontend user journey, including role-based access. Work through each table in order, tick Pass/Fail, and log failures in §6.

### Environments under test

| Layer                    | URL                       | Result            |
|--------------------------|---------------------------|-------------------|
| Backend API (Express)    | http://localhost:8080/api | [ ] Pass [ ] Fail |
| Frontend (Vite + React)  | http://localhost:5173     | [ ] Pass [ ] Fail |
| Database (MongoDB Atlas) | medi-db                   | [ ] Pass [ ] Fail |

### How to start

```
npm run setup      # install root + client dependencies (one time)
npm run seed       # load demo users, labs, 13 products (resets collections)
npm run dev        # backend :8080 + frontend :5173 together
```

### Seeded test accounts (password '! ' login)

| Role           | Email                   | Password / Result |
|----------------|-------------------------|-------------------|
| Admin          | admin@example.com       | Admin@123         |
| Patient / User | rahul@example.com       | Password@123      |
| Doctor         | amit.doctor@example.com | Doctor@123        |
| Pathologist    | anjali.path@example.com | Path@123          |

Conventions: [auth] = send header Authorization: Bearer <token> (log in first). IDs like :pid / :oid come from earlier responses. mark each row Pass or Fail as you go.

## 1. Backend API tests

Base URL http://localhost:8080. Execute with Postman / curl / Thunder Client.

### 1.1 Auth (/api/auth)

| ID   | Request                                         | Expected                       | Result            |
|------|-------------------------------------------------|--------------------------------|-------------------|
| A-01 | POST /auth/register {name,email,phone,password} | 201 + success message          | [ ] Pass [ ] Fail |
| A-02 | POST /auth/register with an existing email      | 409 User Already Exists        | [ ] Pass [ ] Fail |
| A-03 | POST /auth/login {email,password} (valid)       | 200 + {token,name,email,phone} | [ ] Pass [ ] Fail |
| A-04 | POST /auth/login with wrong password            | 401 Invalid Credentials        | [ ] Pass [ ] Fail |

|      |                                              |                                     |                                                             |
|------|----------------------------------------------|-------------------------------------|-------------------------------------------------------------|
| A-05 | GET /auth/me [auth]                          | 200 profile incl. userType          | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
| A-06 | PUT /auth/me {name,phone,age,address} [auth] | 200 updated user                    | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
| A-07 | PUT /auth/me {userType:'ADMIN'} [auth]       | 401 Only Admin Can Change User Type | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
| A-08 | GET /auth/me without token                   | 401                                 | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |

## 1.2 Products (/api/products)

| ID   | Request                                             | Expected                                       | Result                                                      |
|------|-----------------------------------------------------|------------------------------------------------|-------------------------------------------------------------|
| P-01 | GET /products (no params)                           | 200 array, only isActive items                 | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
| P-02 | GET /products?search=paracetamol                    | 200 filtered by name/salt/company              | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
| P-03 | GET /products?category=Tablet&sort=price_asc        | 200 filtered + sorted                          | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
| P-04 | GET /products?maxPrice=100                          | 200 all price "d 100                           | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
| P-05 | GET /products/:pid (valid id)                       | 200 single product                             | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
| P-06 | GET /products/:pid/alternatives (Paracetamol/Cipla) | 200 Crocin + Dolo (same salt, other companies) | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
| P-07 | GET /products/:pid (bad id)                         | 404 Product Not Found                          | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |

## 1.3 AI prescriptions (/api/ai)

| ID    | Request                                                     | Expected                                            | Result                                                      |
|-------|-------------------------------------------------------------|-----------------------------------------------------|-------------------------------------------------------------|
| AI-01 | POST /ai/prescription multipart 'prescription'=image [auth] | 200 Prescription doc (patient, doctor, medicines[]) | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
| AI-02 | POST /ai/prescription with no file [auth]                   | 400 No image uploaded                               | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
| AI-03 | GET /ai/prescriptions [auth]                                | 200 own history, newest first                       | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
| AI-04 | GET /ai/prescriptions/:pid [auth, owner]                    | 200 single prescription                             | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
| AI-05 | GET /ai/find/:pid [auth] (may take seconds)                 | 200 {medicines[], tests[], summary}                 | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
| AI-06 | GET /ai/find/000000000000000000000000 [auth]                | 404 Prescription Not Found                          | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |

## 1.4 Cart (/api/cart)

| ID   | Request                                     | Expected                      | Result                                                      |
|------|---------------------------------------------|-------------------------------|-------------------------------------------------------------|
| C-01 | GET /cart [auth, first time]                | 200 empty cart created        | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
| C-02 | POST /cart {productId, quantity:2} [auth]   | 200 cart with populated line  | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
| C-03 | POST /cart same product {quantity:1} [auth] | 200 quantity incremented to 3 | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
| C-04 | POST /cart quantity above stock [auth]      | 409 Only N units available    | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |

|      |                                          |                        |                   |
|------|------------------------------------------|------------------------|-------------------|
| C-05 | PUT /cart/:productId {quantity:1} [auth] | 200 exact quantity set | [ ] Pass [ ] Fail |
| C-06 | PUT /cart/:productId {quantity:0} [auth] | 200 line removed       | [ ] Pass [ ] Fail |
| C-07 | DELETE /cart/:productId [auth]           | 200 line removed       | [ ] Pass [ ] Fail |
| C-08 | DELETE /cart [auth]                      | 200 cart emptied       | [ ] Pass [ ] Fail |
| C-09 | GET /cart without token                  | 401                    | [ ] Pass [ ] Fail |

## 1.5 Orders (/api/orders)

| ID   | Request                                                 | Expected                                                  | Result            |
|------|---------------------------------------------------------|-----------------------------------------------------------|-------------------|
| O-01 | Add 2 items, then POST /orders {shippingAddress} [auth] | 201 order, total correct, cart cleared, stock decremented | [ ] Pass [ ] Fail |
| O-02 | POST /orders with empty cart [auth]                     | 409 Cart Is Empty                                         | [ ] Pass [ ] Fail |
| O-03 | POST /orders without address [auth]                     | 409 Shipping Address Required                             | [ ] Pass [ ] Fail |
| O-04 | GET /orders [auth]                                      | 200 own orders newest first                               | [ ] Pass [ ] Fail |
| O-05 | GET /orders/:oid [auth, owner]                          | 200 single order                                          | [ ] Pass [ ] Fail |
| O-06 | PUT /orders/:oid/cancel [auth, status placed]           | 200 status=cancelled, stock restored                      | [ ] Pass [ ] Fail |
| O-07 | PUT /orders/:oid/cancel again (not placed)              | 409 Only 'placed' can be cancelled                        | [ ] Pass [ ] Fail |

## 1.6 Chat (/api/chat)

| ID   | Request                                                 | Expected                                                                          | Result            |
|------|---------------------------------------------------------|-----------------------------------------------------------------------------------|-------------------|
| H-01 | POST /chat {message:'How do I store medicines?'} [auth] | 201 {userMessage, aiMessage}; reply short, no diagnosis/dosage, suggests a doctor | [ ] Pass [ ] Fail |
| H-02 | GET /chat [auth]                                        | 200 history ascending                                                             | [ ] Pass [ ] Fail |
| H-03 | POST /chat {message:''} [auth]                          | 409 Message Required                                                              | [ ] Pass [ ] Fail |

## 1.7 Doctors (/api/doctor)

| ID   | Request                                         | Expected                              | Result            |
|------|-------------------------------------------------|---------------------------------------|-------------------|
| D-01 | GET /doctor (public)                            | 200 doctor list                       | [ ] Pass [ ] Fail |
| D-02 | POST /doctor/request full doctor form [auth]    | 201 pending doctor (isVerified false) | [ ] Pass [ ] Fail |
| D-03 | POST /doctor/request with missing fields [auth] | 409 Please Fill All Details           | [ ] Pass [ ] Fail |
| D-04 | POST /doctor/:did [auth]                        | 201 appointment (populated)           | [ ] Pass [ ] Fail |
| D-05 | GET /doctor/appointments [auth, as DOCTOR user] | 200 own appointments                  | [ ] Pass [ ] Fail |
| D-06 | GET /doctor/appointments [auth, as USER]        | 401 You Are Not Doctor                | [ ] Pass [ ] Fail |

|      |                                               |             |                                                             |
|------|-----------------------------------------------|-------------|-------------------------------------------------------------|
| D-07 | PUT /doctor/appointments/:aid {status} [auth] | 200 updated | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
|------|-----------------------------------------------|-------------|-------------------------------------------------------------|

## 1.8 Pathology (/api/pathologist)

| ID   | Request                                                            | Expected                | Result                                                      |
|------|--------------------------------------------------------------------|-------------------------|-------------------------------------------------------------|
| L-01 | GET /pathologist + GET /pathologist/tests (public)                 | 200 labs and tests      | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
| L-02 | POST /pathologist/request full lab form [auth]                     | 201 pending pathologist | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
| L-03 | POST /pathologist/add {title,description,price} [auth PATHOLOGIST] | 201 test                | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
| L-04 | PUT /pathologist/test/:tid [auth, owner]                           | 200 updated test        | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
| L-05 | DELETE /pathologist/test/:tid [auth, owner]                        | 200 Test Deleted        | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
| L-06 | POST /pathologist/:pid {pathologyTest} [auth]                      | 201 booking (populated) | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
| L-07 | POST /pathologist/:pid without pathologyTest [auth]                | 409 Add PathologyTest   | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
| L-08 | GET /pathologist/appointments [auth PATHOLOGIST]                   | 200 own bookings        | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |

## 1.9 Admin (/api/admin)

| ID   | Request                                                                                       | Expected                                  | Result                                                      |
|------|-----------------------------------------------------------------------------------------------|-------------------------------------------|-------------------------------------------------------------|
| M-01 | GET /admin/users, /admin/products, /admin/doctors, /admin/pathologists, /admin/orders [admin] | 200 lists                                 | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
| M-02 | GET /admin/users [auth, non-admin]                                                            | 401 Only Admin Access                     | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
| M-03 | POST /admin/product multipart image + genericName/company/category [admin]                    | 201 product                               | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
| M-04 | PUT /admin/product/:pid {price,stock} [admin]                                                 | 200 updated                               | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
| M-05 | DELETE /admin/product/:pid [admin]                                                            | 200 deactivated; gone from GET / products | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
| M-06 | PUT /admin/doctor/:did {isVerified:true} [admin]                                              | 200 + user becomes DOCTOR                 | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
| M-07 | PUT /admin/pathologists/:pid {isVerified:true} [admin]                                        | 200 + user becomes PATHOLOGIST            | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
| M-08 | PUT /admin/orders/:oid {status:'shipped'} [admin]                                             | 200 status updated                        | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |

## 2. Frontend end-to-end tests

URL <http://localhost:5173>. Use a fresh browser profile where noted. ' = assert the stated outcome.

### 2.1 Auth, routing & layout

| ID   | Steps / assert                                        | Expected                                   | Result                                                      |
|------|-------------------------------------------------------|--------------------------------------------|-------------------------------------------------------------|
| F-01 | Register (name, email, phone, password) !' auto-login | Lands on / + toast 'Account created'       | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
| F-02 | Register with existing email / short password         | Inline error or error toast, stays on page | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
| F-03 | Login as ADMIN !' redirect                            | Admin users dashboard                      | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |

|      |                                                           |                                                         |                                                             |
|------|-----------------------------------------------------------|---------------------------------------------------------|-------------------------------------------------------------|
| F-04 | Login as DOCTOR / PATHOLOGIST / USER                      | Own dashboard / home respectively                       | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
| F-05 | Open /checkout logged out                                 | Redirects to /login                                     | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
| F-06 | As USER open /dashboard/admin/users directly              | Bounced to / (RoleRoute)                                | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
| F-07 | Navbar: cart badge, mobile hamburger, role dashboard link | Badge count live; dashboard link only for matching role | <input type="checkbox"/> Pass <input type="checkbox"/> Fail |
